- **Pre-registration**

- October 22, 2024 - January 14, 2025
- Pre-registration is available to approved youth. There is no preference given to youth that pre-register first over those who pre-register last.
- Pre-registration is the first phase of getting registered for FSY. It is a process where youth can indicate their session and group preferences. This significantly improves their chances of attending their preferred session.
- The goal of pre-registration is to provide a fair and easy FSY registration experience for all participants and parents.

- 6 youth may be linked together — NO exceptions to link size
- These youth can be of any gender, any age, any stake
- 1 person will create the pre-registration link, and can share their unique 'link word' with others
- A pre-registration link is not a roommate request, a group request, or a company request (roommate requests will be made during registration finalization)
- In order to join the same pre-registration link, youth need to indicate the same session preferences.

Session Preferences

- Youth can indicate which of their available sessions they would prefer to attend
- Rank available FSY sessions in order of preference (first, second, etc.)
- Session preferences only include the sessions their stake is assigned to attend
- Session preferences can be edited until Jan. 14 (the day pre-registration closes)
- Once any youth has joined a pre-registration link; that groups session preferences cannot be edited
